This Certificate is valid until **2018-06-30**.

Issued at **Høvik** on **2015-07-15**

DNV GL local station: **Sydney**

for **DNV GL**

Approval Engineer: **Nadine Grace Mosteiro  
Halvorsen**

.....  
**Oddvar Deinboll  
Head of Section**

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

## **Product description**

Polymer flexible engine mounts

## **Application/Limitation**

The mounts are approved for use for mounting of propulsion, auxiliary engines and reduction gear

Size of mounts to be chosen according to the maker's data sheets for the approved series of mounts.

## **Type Approval documentation**

Data, test results and drawings received in booklets with letters from IsoFlex received with letter from DNV Brisbane dated 2010-03-19

Data and drawings received electronically with letters from IsoFlex submitted to DNV GL Sydney 2015-06-22.

## **Tests carried out**

Tests carried out in January 2007, reported in IsoFlex Booklet received with letter from DNV Brisbane dated 2010-03-19.

## **Marking of product**

The product to be marked with manufacturer's name or trademark and type number identification.

## **Other conditions**

No product certificate required

Installation, maintenance and inspection of the mounts to be done according to the makers instructions.

Engine vibration calculations to be submitted for approval according to DNV Rules Pt.4, Ch.3. Sec.1 A 600.

## **Periodical assessment**

For retention of the Type Approval, a DNV surveyor shall perform a survey every second year and before the expiry date of this certificate to verify that the conditions of the type approval are complied with.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the

Type Approval Certificate was issued. The main scope of the Periodical Assessment will normally include:

- Verification of the Type Approval applicant's production and quality system w.r.t. ensuring continued consistent production of the Type Approved products at the Type Approval applicant's own premises and at other companies that are given the responsibility for manufacturing of the products.
- Review of the Type Approval documentation and that this is still used as basis for the production
- Review of possible changes to the design, the material and the performance of the product
- Verification of the product marking.
